Course Coordinator Contact Information

If you are unsatisfied with the response from your instructor, you may contact the Computer Science 101 Coordinator for assistance.

Name: Brian Powell

E-mail Address: brian.powell@mail.wvu.edu

Office: 205 Armstrong Hall (Morgantown, Downtown Campus)

Office Hours: Please e-mail to arrange an appointment.

Course Description and Learning Objectives

Course Description

Computer Science 101 is designed to teach students how to use computer applications as effective tools for problem solving and data analysis. The course introduces four different Microsoft Office applications, with a primary focus on using Excel and Access to analyze and explore real world data. After completing the course, students will be competent users of the Microsoft Office suite and will have data analysis skills that will be useful in future classes and careers.

Prerequisites and Expected Skills

There are no course prerequisites for Computer Science 101.

Incoming students are expected to be familiar with using a Windows-based computer including managing files and extracting ZIP files. We also expect students to be comfortable with using a web browser, e-mail, and a PDF reader such as Adobe Acrobat Reader. Previous experience with Microsoft Office is helpful.

General Education Curriculum

This course meets [GEC Objectives 2c and 4](#).

Learning Objectives

After completing Computer Science 101, students will be able to:

| Objective | Non-Exam Assessment Tools |
|---|---|
| Use Microsoft Excel to perform calculations, conduct data analysis, and explore what-if cases to understand real world scenarios. | <ul style="list-style-type: none">• Homework #1• Homework #2• Homework #3• Homework #6• MyITLab Lesson A• MyITLab Lesson B |
| Design and construct databases to store, extract, and analyze scientific and real world data. | <ul style="list-style-type: none">• Homework #4• Homework #5• Homework #6• MyITLab Lesson C |
| Create scientific and technical documents incorporating equations, images, tables, and bibliographies. | <ul style="list-style-type: none">• Homework #6• MyITLab Lesson D |
| Develop technical and scientific presentations which use charts and visual | <ul style="list-style-type: none">• Homework #6 |

Course Organization

Computer Science 101 is organized into three units: [Excel & Data Analysis](#), [Access](#), and [Word & PowerPoint](#). Each unit focuses on one or two of the Microsoft Office applications taught in the course and lasts approximately one-third of the semester. Units are further broken down into chapters corresponding with those used in the textbook.

Each unit includes a number of assignments:

- 1 Exam
- 1-3 Homeworks
- 2-3 MyITLab Lessons
- Several Participation Projects

Course Materials and Technology Requirements

Required Materials

Textbook and MyITLab

Materials

Exploring Microsoft Office 2013, Volumes 1 and 2

Published by Pearson

Volume 1 ISBN: 978-0-13-314267-9

Volume 2 ISBN: 978-0-13-341212-3

MyITLab for Exploring Office 2013, WVU Custom Edition

Published by Pearson

Must be purchased as part of one of the below bundles.

MyITLab®

Bundle Options

The course textbooks and MyITLab are available in two bundle options. For most students, the electronic bundle is adequate.

Electronic Bundle with eTexts and MyITLab

ISBN 978-1-323-39500-4

Available online from [Pearson](#): \$110.40

Available from [Barnes & Noble](#): \$170.00

Available from [Book Exchange](#): \$152.55

Purchasing from Pearson automatically provides access to MyITLab and the eTexts. The version sold at the bookstores is an access card for MyITLab and the eTexts.

Print Bundle with Print Books, eTexts, and MyITLab

ISBN 978-1-323-29553-3

Available from [Barnes & Noble](#): \$186.05

Available from [Book Exchange](#): \$166.95

Available from [BookHolders](#): \$163.61

The print bundle includes an access card for MyITLab and the eTexts.

Notes

MyITLab is required and must be purchased new for each student. MyITLab and eText access are valid for 12 months. Students who previously purchased MyITLab new in Summer 2015 can contact their instructor for a new code.

Microsoft Office

Microsoft Office 2013 Professional/Pro Plus, Microsoft Office 2016 Professional/Pro Plus or Microsoft Office 365 Professional/Pro Plus/Home/Personal/University

These versions include Word, Excel, Access, and PowerPoint.

Office for Mac does not include Access and lacks other features required for CS101 assignments.

Free Download

WVU students can now install a compatible version of Office 365 for free on up to 5 computers. Learn more at the [WVU Information Technology Services website](#).

Public Labs

Microsoft Office and all other CS101 software is installed in [CS101 Open Lab](#) and the on-campus public labs.

Recommended Materials

Supplemental Content

Supplemental Content for Microsoft Office 2013

Published by West Virginia University

This material is available as a free download on the [Supplemental Content page](#).

Computer Requirements

All of the required software is available on computers in [CS101 Open Lab](#), on [WVU Libraries](#) public computers, and in the [ITS computer labs](#).

To use your own computer, you will need the following:

- Microsoft Windows 7, 8, 8.1, 10 or Mac OS X 10.6 or newer
- Microsoft Office 2013 Professional/Pro Plus, Microsoft Office 2016 Professional/Pro Plus or Microsoft Office 365 Professional/Pro Plus/Home/Personal/University
- Current version of Google Chrome (preferred), Mozilla Firefox (preferred), Microsoft Internet Explorer, Microsoft Edge, or Apple Safari
- [Adobe Acrobat Reader](#) or another PDF viewer
- A reliable high-speed Internet connection

Additionally, you may wish to have the following items:

- USB flash drive or cloud storage ([Google Drive](#), [Dropbox](#), [OneDrive](#)) to store files
- Headphones or speakers to listen to videos

If you have a Mac, please be aware:

- Microsoft Office for Mac contains only Word, Excel, and PowerPoint. There is no version of Access available for Mac OS.
- Office for Mac may lack features required to complete assignments.
- A free virtual machine to run Microsoft Windows 10 and the Windows version of Office 365 on a Mac is [available](#).

The CS101 website and [Pearson eText](#) are supported on Windows and Mac computers as well as iOS and Android mobile devices. A Windows or Mac computer must be used to complete MyITLab Lessons. A Windows computer, or Mac running the [free virtual machine](#), is required to complete Homeworks, Participation Projects, and MyITLab Bonus Projects.

We recommend students complete the [MyITLab Browser Tune-up wizard](#). Failure to have a usable computer does not excuse you from course requirements and deadlines.

Please see the [Technical Support page](#) for information on how to get assistance if you have computer problems. If you are considering purchasing a new computer, WVU's recommendations are [available here](#).

WVU Login Account

Your [WVU Login account](#) will be used to login to CS101 computers and websites. You must claim your [WVU Login account](#) before use. If you encounter problems with WVU Login, call ITS Help Desk at (304) 293-4444.

It is your responsibility to have a working WVU Login account. Failure to do so may keep you from completing required work and can impact your grade.

Materials Purpose and Usage

Computer Science 101 uses a variety of materials to help teach the course subject matter.

Readings from the *Exploring Office 2013* textbook and [Supplemental Content](#) are recommended and beneficial. While the content covered here is generally also taught in MyITLab Lessons, reading the textbook will provide an additional way of understanding the material. The textbook will also be helpful in case you encounter difficulty completing MyITLab Lessons questions as there is a one-to-one mapping between the MyITLab questions and Hands-On Exercises in the textbook.

The training components of MyITLab Lessons are an excellent way to learn how to complete the tasks required by this course. These computer-based training exercises will guide you through the process of completing tasks in Microsoft Office. While you may skip the trainings and go directly to the graded assessments, we suggest starting with the trainings so that you are fully prepared with the material for when you are in class and when you complete the MyITLab Lessons assessments. Completing the trainings will also familiarize you with the tools you will need for the Participation Projects, Homeworks, Exams, and MyITLab Bonus Projects.

Other instructional materials used with the course are marked if they are required, recommended, or optional.

Course Grades

Assignment Point Values

Course grades are based on the following required assignments:

| Assignment | Number | Points Each | Total Points |
|--|---|-------------|--------------|
| Homeworks | 6 | 50 | 300 |
| MyITLab Lessons (Each Lesson contains approximately 40 questions) | 190 Assessment Questions (1-190 questions correctly completed) | 1.316 | 250 |
| Participation Projects | 10 | 10 | 100 |
| Exams #1-#2 | 2 | 100 | 200 |
| Final Exam | 1 | 150 | 150 |
| Total Required Points | | | 1,000 |

Additionally, students can earn up to 60 points in bonus (extra) credit:

| Assignment | Number | Points Each | Total Points |
|------------------------------|--------|-------------|--------------|
| MyITLab Bonus Projects | 3 | 20 | 60 |
| Possible Bonus Points | | | 60 |

Final Grades

The following letter grade scale will be used in issuing final grades:

| Letter Grade | Total Points Earned |
|--------------|---------------------|
| A | 900 or more |
| B | 800-899 |

| | |
|---|--------------|
| C | 700-799 |
| D | 600-699 |
| F | 599 or fewer |

Incomplete grades are issued extremely rarely, only in the case of severe family or medical emergencies. Significant documentation is required.

Assignment Grades and Feedback

CS101 grades are posted to the [CS101 View Grades page](#). Students should review grades as soon as they are posted. Grades may only be contested within 7 calendar days of when they are posted.

Homeworks and Exams are graded based on a rubric included in their instructions. Analysis questions are scored based on if the answer responds to the question prompt, was factually correct or reasonable, and provides an adequate supporting justification. Instructors will attempt to post grades for Homeworks and Exams within 14 days of when they are due.

Participation Projects are graded based on if a good faith effort was made to complete the project. If a good faith effort was made, full credit will be given. If not, no credit will be awarded. Participation Projects grades will be updated periodically throughout the semester.

MyITLab Lessons are graded based on the number of correct submitted assessment questions. Records on assessment submissions showing the number of correct questions are available in MyITLab. Calculated CS101 grades are periodically posted to the [CS101 View Grades page](#), generally within one week after each MyITLab Lesson due date.

MyITLab Bonus Projects are computer-graded based on a rubric included in their instructions. Scores are available in MyITLab shortly after submission. Instructors will post calculated CS101 grades to the [CS101 View Grades page](#) after the final due date.

Course Assignments

Due Dates

CS101 is not a self-paced course. For sections lasting the entire semester, assignments are due on the dates shown below:

| Due Date | Assignment |
|----------------------------------|---|
| Monday, February 1, 2016 | MyITLab Lesson A |
| Friday, February 5, 2016 | Homework #1 |
| Friday, February 12, 2016 | Homework #2 |
| Friday, February 19, 2016 | Homework #3 |
| Monday, February 22, 2016 | Exam #1 for Sections 3, 4, 7, 8, 11, 12, 15, 19, and 7D1 |

| | |
|---|---|
| Tuesday, February 23, 2016 | Exam #1 for Sections 51, 53, 54, 55, 56, 57, 58, 59, 60, 61, 63, and 7D1 |
| Wednesday, February 24, 2016 | Exam #1 for Sections 1, 5, 6, 9, 10, 13, 14, 17, and 21 |
| Friday, February 26, 2016 | MyITLab Lesson B |
| Friday, April 1, 2016 | Homework #4 |
| Friday, April 8, 2016 | Homework #5 |
| Monday, April 11, 2016 | Exam #2 for Sections 3, 4, 7, 8, 11, 12, 15, 19, and 7D1 |
| Tuesday, April 12, 2016 | Exam #2 for Sections 51, 53, 54, 55, 56, 57, 58, 59, 60, 61, 63, and 7D1 |
| Wednesday, April 13, 2016 | Exam #2 for Sections 1, 5, 6, 9, 10, 13, 14, 17, and 21 |
| Friday, April 15, 2015 | MyITLab Lesson C |
| Friday, April 22, 2015 | MyITLab Lesson D |
| Friday, April 29, 2016 | Homework #6 |
| Friday, April 29, 2016 | MyITLab Lesson E |
| Friday, April 29, 2016 | MyITLab Bonus Projects #1, #2, and #3 |
| Friday, April 29, 2016 | MyITLab Lessons Late Submission Deadline |
| Monday, May 2, 2016 to Friday, May 6, 2016 | Final Exam - see schedule for day and time |

Participation Projects due dates are not listed on the above schedule as they are not announced in advance. A listing of previous Participation Projects is on [your instructor's](#) Assignments page.

Schedules showing the content being taught each week are posted on [your instructor's website](#).

Late Work

Homeworks are due at 11:59pm Eastern Time on the listed due date. A penalty of 20% per calendar day will be deducted from late work.

Participation Projects are due at the end of the class in which they were assigned (on-campus sections) or at a time specified by the instructor (online sections). Participation Projects will not be accepted late and cannot be made up.

MyITLab Lessons are due at 11:59pm Eastern Time on the listed due date. Late work will be accepted for 50% credit until the listed MyITLab Lessons Late Submission Deadline, after which time no credit will be given.

MyITLab Bonus Projects are due at 11:59pm Eastern Time on the listed due date. Late work will not be accepted.

In the cases of family or medical emergency, an instructor may grant due date extensions at their discretion. Students must contact the instructor and make arrangements to make-up any missing assignments in a timely manner.

Technical Problems and On-Time Completion

Students are responsible for completing and submitting their assignments on-time, regardless of any problems they encounter. Extensions will not be provided because of technical problems. Start your work early.

To reduce the likelihood of problems, students are encouraged to use [CS101 Open Lab](#) or a WVU-maintained computer to complete their work.

If you encounter problems in completing your work, please immediately notify your instructor. You should also contact Pearson Tech Support for MyITLab issues. Notifying your instructor does not absolve you of the requirement to complete your assignments on-time.

Accessing Assignments

Homeworks and Participation Projects will be posted on each instructor's website.

MyITLab Lessons and MyITLab Bonus Projects are available in MyITLab.

Submitting Assignments

Homeworks, Exams, and Participation Projects are submitted through the [Submit Assignments tool](#). Participation Projects for on-campus sections must be submitted from a CS101 lab computer.

Assessments for MyITLab Lessons are automatically submitted when the entire assessment is complete. They can also be manually submitted from within the assessment.

MyITLab Bonus Projects must be submitted from within MyITLab. Students have two attempts for each MyITLab Bonus Project. Credit will be given for the highest scoring attempt.

Students are responsible for ensuring their work was successfully submitted.

Academic Integrity

The integrity of the classes offered by any academic institution solidifies the foundation of its mission and cannot be sacrificed to expediency, ignorance, or blatant fraud. Therefore, the instructor will enforce rigorous standards of academic integrity in all aspects and assignments of this course.

For all assignments except Participation Projects, students must work independently by themselves. Sharing of files is not permitted for any reason. Unless otherwise instructed, students must start working from a new blank file for each assignment.

For Participation Projects only, instructors may authorize groups of students to work together. Sharing of files is only permitted within the group.

Violations

Examples of academic integrity violations include but are not limited to:

- Working with another person on any assignment other than authorized group Participation Projects.
- Sharing or allowing others to access your files, whether done with permission or not. You are responsible for protecting your files to ensure no one else can access them.

- Use or possession of a file created by someone else. Do not reuse even blank files.
- Reusing work from another semester, course, or section.
- Fraudulent submission of work.
- Using unauthorized materials during Exams.
- Unauthorized use, possession, or access of assignments.
- Disregard of Exam time limits.
- Submission of a project different than what was assigned for your section.
- Impersonating someone else or having them impersonate you.
- Making fraudulent or dishonest statements regarding your work.
- Soliciting others to complete work for you.
- Posting course files and resources on study or content sharing websites.

Penalties

A range of penalties is possible for academic integrity violations. The standard penalties are listed below, but more severe penalties including an unforgivable F for the course can be applied.

| Occurrence | Standard Penalties |
|----------------------------|--|
| First Occurrence | For violations not related to an Exam, no credit will be given for the assignment. An additional 50-point penalty is applied. For violations related to an Exam, a failing grade (F) will be issued for the course. |
| Second Occurrence or After | Failing grade (F) will be issued for the course. This penalty can be applied even if the student had no notice of the First Occurrence violation. |

This academic integrity policy continues to be in force even after you complete Computer Science 101. Post-completion penalties may be enforced through modifications to the final grade recorded on your transcript.

If an academic integrity violation is suspected, you will be notified via e-mail. You may appeal to your instructor or the course coordinator within 7 calendar days of the notice being sent. Failure to appeal or reply within this time period will be considered an admission of guilt and applicable penalties will be applied.

Additional information on WVU's academic integrity policy is available from the [Office of Student Conduct](#). If you have any questions about this policy or if an activity is allowed, it is your responsibility to check with your instructor beforehand.

Policy Acknowledgment Form

All students must complete the [Policy Acknowledgment Form](#) to receive credit for their work. Credit may not be granted for work due prior to when this form is completed.

Academic Integrity Compliance Audit

At any time, CS101 may audit a student's compliance with the Academic Integrity Policy. Students who do not successfully complete the Audit will lose all credit for assignments being audited. The audit may also lead to the finding of academic integrity violations.

Work Retention

Students must retain copies of all submitted Homeworks and MyITLab Bonus Projects. Files must be secured so that nobody else is able to access them.

MyITLab Lessons

Each MyITLab Lesson contains multiple chapters. Students must complete the assessment for each chapter.

In total, approximately 215 assessment questions are available. Students receive credit for successful completion of up to 190 assessment questions. The additional questions serve as spares in case students skip or miss questions.

MyITLab Student IDs

Students are also responsible for setting their Student ID in MyITLab as shown in [our instructions](#). Those with incorrectly set Student IDs may not receive credit for MyITLab Lessons and MyITLab Bonus Projects if the issue is not corrected by the MyITLab Late Submission Deadline.

Exams

Exams are closed book, closed notes, and closed Internet. The only allowed outside resource is the built-in Microsoft Help system. You must have a valid WVU or government-issued photo ID to take each exam.

Students will have 60 minutes each for Exams #1 and #2 and 120 minutes for the Final Exam. Exams must be completed in one sitting. If students arrive late or leave early, any lost time is forfeited.

Exams for on-campus sections are at the regularly scheduled class time and location. Exams for online sections are held in Open Lab's Armstrong Hall location or with an instructor-approved proctor. Please arrive at least 15 minutes before the scheduled start time and stay for the full allowed time.

If you wish to reschedule an Exam because of a schedule conflict, scheduled event, or Day of Concern, you must notify your instructor prior to exam day. If you miss an Exam because of a personal, family, or medical emergency, you must notify your instructor within 48 hours of the scheduled start time. Documentation may be required.

All makeup exams are at the instructor's discretion. They must be completed within 4 weekdays of the scheduled exam day (Exams #1-#2) or at the announced makeup session (Final Exam).

Course Policies

Attendance and Engagement

For on-campus students, regular attendance is important to learn the material covered in CS101. You are responsible for any work or content missed if you do not attend class. While not directly a component of your grade, attendance is tracked. Students must [sign-in during class](#) to record attendance.

For online students, regular engagement is important to learn the material covered in CS101. You are responsible for checking the course website and your e-mail regularly, and for completing any readings, activities, or assignments assigned by your instructor. We do not directly grade or have any requirements for student engagement or interaction beyond completing the required assignments (Homeworks, Participation Projects, MyITLab Lessons, and Exams).

Course Communication

The CS101 websites and your MIX e-mail account are the primary means through which we distribute information. It is your responsibility to check them daily.

When e-mailing your instructor, please be sure to identify your name, your course section, and clearly explain your question or concern. To ensure you are easily understood, please write in standard English.

Your instructor generally will respond to e-mails within 48 hours. While you may frequently receive same-day responses, they are not guaranteed and should not be expected.

Expected Conduct and Etiquette

When in class or [Open Lab](#), please:

- Be attentive. Do not use lab computers for non-CS101 work.
- Do not complete assignments unless allowed by your instructor.
- Do not be late to arrive or early to leave.
- Do not converse with others or be disruptive.
- Do not eat, drink, chew gum, use chewing tobacco or read newspapers.
- Do not use cell phones. Set them to vibrate or turn them off to avoid interrupting others.
- Avoid damaging equipment and furniture.
- Do not leave computers logged in and unattended. You are responsible for any actions taken in your user account.

When using [Open Lab Online](#) or other online aspects of the course, or sending e-mails:

- Do not type in ALL CAPS as this is interpreted as shouting.
- Write in complete sentences.

Always:

- Avoid dominating the conversation if in a group setting.
- Refrain from inappropriate or derogatory language or gestures.
- Abstain from personal attacks.
- Keep your grades private. It is inappropriate to discuss them in a public forum.
- Act in a professional, courteous manner.

The above actions disturb other students and are disrespectful to CS101 staff. Violations removal from the classroom, Open Lab, or course activities.

Please also be aware of and comply with the [CS101 Academic Integrity Policy](#) and the [WVU Campus Student Code](#).

Adverse Weather and Cancellations

On rare occasions, CS101 classes, Open Lab, or Open Lab Online may be cancelled. If this occurs, notice will be provided via MIX e-mail, the CS101 website, and/or social media.

In the event of inclement or threatening weather, everyone should use their best judgment regarding travel to and from campus. Safety should be the main concern. If you cannot get to class or an exam because of adverse weather conditions, you should contact your instructor as soon as possible.

Similarly, if your instructor is unable to reach the class location, they will notify you of any cancellation or change as soon as possible using MIX e-mail and the CS101 website to prevent you from embarking on any unnecessary travel. CS101 will make accommodations as appropriate on days where class or exams are cancelled or there are inclement weather conditions.

[Time and Workload Expectation](#)

The workload for this course (assignments, studying, etc.) is commensurate with a 4-credit course. This requires a commitment on your part to obtain good grades. Consider scheduling time each week for CS101 to ensure you complete your assignments on-time.

[Privacy](#)

Under the Family Educational Rights and Privacy Act of 1974 and [WVU policy](#), students have a right to the privacy of their academic information. A [FERPA release](#) must be on file with CS101 before we can release information on a student's performance to third parties. Granting access to the [Parent/Guest Portal](#) or signing a general waiver is not sufficient to allow the release of CS101 information.

Please be aware that usage of CS101 computers, the course website, and other course systems may be monitored.

CS101 uses resources provided by third parties. Their privacy policies are available below:

- [Google](#)
- [Microsoft](#)
- [Pearson Education](#)
- [WVU Libraries](#)
- [YouTube](#)

[Inclusivity](#)

The West Virginia University community is committed to creating and fostering a positive learning and working environment based on open communication, mutual respect, and inclusion.

[Student Resources](#)

[Open Lab and Open Lab Online](#)

If you need assistance or a place to work, you may visit Open Lab in Armstrong Hall or Lyon Tower. A schedule of hours is [available](#).

Help is also available via Skype through [Open Lab Online](#).

Open Lab staff will help answer your questions. They will not do your work for you. You must make a reasonable attempt at completing your work before asking for assistance. You may be refused assistance if the staff believes you are misusing Open Lab.

Open Lab staff generally does not provide assistance on MyITLab Lessons or MyITLab Bonus Projects.

Open Lab gets very busy near assignment due dates. Please come early in the week if you require assistance. Otherwise, you may have to wait for help.

Student Services

Commonly used WVU student services include:

- [WVU Student Support Services](#)
- [WVU Libraries](#)
- [WVU Academic Catalog](#)
- [WVU Educational Software Licensing](#)
- [WVU Computer Security](#)
- [WVU Accessibility Services](#)
- [WVU Portal](#)
- [WVU Students Gateway](#)

Technical Support

Please see our [Technical Support page](#) information on available assistance.

Accessibility

Accessibility Accommodations

If you are a person with a disability and anticipate needing any type of accommodation in order to participate in this class, please advise your instructor and make appropriate arrangements with the [Office of Accessibility Services](#) at (304) 293-6700. For more information on West Virginia University's Diversity, Equity, and Inclusion initiatives, please see the [Division of Diversity, Equity, and Inclusion website](#).

If you are authorized for and wish to receive accommodations for an exam, you must notify your instructor at least one week in advance to receive them. Any exams that are administered in Open Lab due to accessibility accommodations must be taken during the same calendar week (Monday-Friday) as the regular exam date.

Technology Accessibility

The CS101 website and course-developed materials are design to comply with the [WVU Accessibility for Online Course Content guidelines](#) and [WebAIM](#)'s web content accessibility guidelines.

CS101 uses third-party tools. Their accessibility statements are available below:

- [Google](#)
- [Microsoft Office 2013](#)

- [MyITLab](#)
- [YouTube](#)
